

Addressograph Model 830 Imprinter

A fast, reliable electric imprinter for a variety of data capture applications.

A Refreshed Look and New Features!

The Addressograph 830 imprinter is an economical electric imprinter that combines crisp impressions, format flexibility and product durability for a variety of data capture applications. The 830 provides superior legibility and effortless action you can depend on to precisely reproduce the information you need - in seconds.

Superior Impressions

The Addressograph 830 was designed for quick and easy imprinting in low - medium volume applications. The 830 offers accurate formset positioning and one-touch operation.

Limitless Flexibility

The 830 fits neatly onto any desktop area and accomodates both industry standard CR80 and CR50 size plastic cards and accepts a wide range of documents. An optional metal OCR dater, station plate and room jacket let you capture all your important data allowing for additional customer flexibility and convenience.

A reliable one-touch operating cover, plus rugged steel and high-impact plastic mean many years of uninterrupted performance and countless good impressions.

NewBold Corporation can supply you with the products and services you need to fully implement effective card systems and progams. The Addressograph 830 is just one of the series of imprinters available from NewBold Corporation, a leader in high quality imprinters embossers and blank plastic cards.
